**Directions:** Read the two texts below. Then read the questions that follow them and choose the best answer to each question choosing among A, B, or C.

### Then Came You

*Then Came You* is a bitter-sweet romantic comedy which will appeal to people interested in how teenagers perceive life, how they seek selfexpression, true love and friendship. But don't think it's a film suitable for the young only. It touches the heart of anyone who believes that it's more important how we live our lives than how long we live. In addition, it opens the floor for reflection on and discussion about health, illness and death.

The story revolves around Calvin Lewis and Skye Aitken. Calvin works as a baggage handler at the airport where his father and elder brother Frank work too. Calvin is secretly in love with a flight attendant, Izzy, but he's too shy to even talk to her. Besides, Calvin lives in a constant fear of being ill and dying. His doctor tries to convince him of the opposite and as a last resource he sends him to join a support group for terminally ill people and their family members. It is there that he meets Skye, who is ill indeed and who has reached the final stages of her disease but whose spirit is uncrushed, and she tries hard not to give up and to complete her bucket list.

After some a series of funny misunderstandings and coincidences, the two become friends and start helping each other. Skye assists Calvin in starting to date Izzy and he helps Skye achieve her goals. Although the film does not have a typical happy ending, I think it teaches us about courage, kindness and valuing life. If such themes appeal to you, then I'd recommend spending Friday evening watching *Then Came You* – it's on Channel 4 from 8.00 to 10.00.
